

TIP OF THE WEEK # 63

Food Provided by the Patient's Family

The American University of Beirut Medical Center's policy on food provided by the family (*COP-MUL-010*) is designed to ensure that safe and acceptable food is consumed by the patients.

According to the above policy, patients and families should be discouraged from bringing food from outside the Medical Center unless it is required, to encourage the patient to receive nourishment when all means of satisfaction with the hospital meal service have been exhausted.

More details about this subject are presented thru this link:
