

## **TIP OF THE WEEK # 73**

### **Accreditation Self Survey**

**The quarterly accreditation mock survey was conducted on Wednesday, 3 June, 2009 and the briefing was done on Thursday, 4 June, 2009. The objectives of the mock survey were to check and maintain the level of readiness for the JCI accreditation. During this survey the tracer methodology was used. The surveyors chose a patient from Internal Medicine who has been in the Medical Center for sixteen days.**

**In general, the results of the self survey were satisfactory except for few findings related to the documentation in the patient's medical record. The specific deficiencies were noted and will be followed up by the concerned officials.**
