

TIP OF THE WEEK # 75

Product Evaluation

All new medical supplies and devices (excluding disinfectants) used at the AUBMC are evaluated and approved for safety, efficacy and cost prior to purchase. The Product Evaluation Committee coordinates the evaluation process where representatives of the potential users participate in the evaluation and selection of medical supplies and devices.

Medical Center staff are encouraged to forward their remarks or complaints pertaining to medical supplies and devices used at the AUBMC to the Product Evaluation Committee.

For more detailed information on this subject please refer to the policy on Product Evaluation Process:
