

TIP OF THE WEEK # 89

Single Use Devices

A single use device (SUD) is a medical device intended for one time use during a procedure on one patient. The AUBMC does not allow for reuse of the SUDs. The manufacturer's instructions shall be followed when using the single use devices. The end-user shall use aseptic technique when unpacking a sterile SUD. More information on this subject is available in the policy:

https://his.aub.edu.lb/accrm/policies/AUBMC_Single_Use_Devices_2nd_Ed_0209.pdf
