

Physiotherapy Manager:

Hello!

It was our pleasure to have the summer training of our 3rd year in the physical therapy department at AUBMC. Really, it was a fruitful month, so thanx for your consent. We got benefit from all the physiotherapists there, Ms Claude Maroun the manager, who gives an atmosphere of systematic work with her lovely smile, Mr Charbel Makary, Mr Yousef Koaik, Ms colette Nassar and the remainder of the staff.

The most important thing that attracted us was the relationship between the members of the staff. It was obvious with its sociability and friendliness. Also, what got our attention is the relationship between the therapists and their patients, in the way of explaining to them the problem they suffer from in an organized way using accurate medical terms, and then reassuring them. This is other than the new experience we got in assessing the patient, putting objectives, making priorities, organizing plans, and applying treatment.

Again, we express our acknowledgment, thanx for Ms Maroun the motherly person who used to listen to our problems and solve them with her shiny smile, thanks for AUBMC for its agreement on our training. sorry if for a moment we caused any problem or annoyance.
