Are you a Certified Professional in Healthcare Quality yet?

Sign up for the CPHQ training course and get the gold standard of the healthcare quality profession.

Organized by the Quality, Accreditation and Risk Management Program at the American University of Beirut Medical Center, in collaboration with the Continuing Medical Education Office at the American University of Beirut.

www.aubmc.org
The Continuing Medical Education (CME) Office at the American University of Beirut, in coordination with the Quality, Accreditation and Risk Management Program, is launching its first Certified Professional in Healthcare Quality (CPHQ) course for interested participants in Lebanon and the region.

**Place:** School of Nursing, American University of Beirut  
**Date:** 10-14 October 2011

This five-day condensed course is designed for healthcare quality professionals who are planning to take the CPHQ exam and other professionals seeking to sharpen their healthcare managerial skills. The course is an intensive review of the comprehensive body of knowledge that is designed to provide the participants with the required information to take the CPHQ exam. It includes healthcare quality management principles and patient safety issues presented by way of lectures, discussions, demonstrations, small group work, case studies, and a review of the CPHQ exam questions and answers.

This course has been approved by the National Association for Healthcare Quality for 30 CE credits.

“CPHQ is more than a certificate; it is a professional achievement to be proud of.”

Rihaf Yazbeck
Why CPHQ Certification Matters

The CPHQ credential signifies professional and academic achievement by individuals in the field of healthcare quality management. It is the gold standard of the healthcare quality profession.

Topics Covered in the Course

The comprehensive body of knowledge includes:
